

Short Course & Workshop on Graphene/Ceramic Composites

Cuenca (Spain), September 28-30, 2016

The *International Workshop on Graphene/Ceramic Composites (WGCC)*, the first specific meeting organized on this kind of materials, aims to bring together researchers from all around the world working on this topic to explore the foreseen capabilities of the new family of GCC.

<http://congresos.fuam.es/fuamcongresos/workshop-on-graphene-ceramic-composites/home>

The workshop will cover, among others, the following main topics:

- Graphene fillers production for composites
- Bulk graphene/ceramic materials
- Hybrid graphene/ceramic coatings
- Porous graphene/ceramics
- Processing and sintering
- Properties (mechanical, tribological, thermal, electrical, optic, catalytic,...)
- Applications

Before the conference, a separate **SHORT COURSE on GCC** is offered looking for providing a basic knowledge to students who may not be experts in the GCC area. Up to 20 Grants for students will be awarded.

We encourage you to participate in this workshop and enjoy in Cuenca, a UNESCO World Heritage charming and beautiful city.
